

## WELCOME TO OUR SIDERS ANALYTICS

We have grown from our humble beginnings in a garage in 2022 with just five people to become one of the world-leading IT service providers, according to the IAOP Global Outsourcing 100.

With dedicated involvement, we strive to provide added value in a client's business context, technical innovations, and process improvements to strengthen our clients' long-term position.

Helping clients transform their businesses through innovative technology solutions

## ABOUT OUR SIDERS ANALYTICS

We help global enterprises navigate the digital transformation journey by deploying modern, secure, customer-centric, and cutting-edge digital products. With over three decades of experience in creating digital solutions for world-famous organizations, we have the expertise to overcome digital transformation challenges.

## OUR COMPANY SERVICE

### 01 Data Engineering Solutions

Data engineering implies the collection, validation, storing, and accessibility of data serving as a foundation for analytics and powering BI and AI solutions. This includes real-time data processing, cloud-based big data management and data system modernization to reach ultimate business goals faster.

### 02 AI/ML Solutions

Sophisticated artificial intelligence (AI) solutions help enterprises solve business problems more efficiently, improve retention and lifetime value (LTV) and increase bottom-line profits. AI solutions include natural language processing, computer vision, and robotic process automation that help enterprises reduce costs and increase profits.
